

DA-Test Rebrands as DA-Integrated, Opens New Headquarters

We are pleased to announce our new company name “DA-Integrated” in conjunction with the opening of our new head office and lab at 3 Iber Road, Ottawa, Canada and the addition of a Sales Office in Israel.

The new name reflects the addition of Design Services and IC Supply Management and Engineering Services to DA-Test’s original service offerings of ATE Test Development and Specialized Production Testing, creating a comprehensive, “Integrated” Microelectronics Services Solution. Our new, expanded office features a larger test floor and server farm to accommodate the growth in our services. Our new sales office in Israel is in response to strong global demand for this unique combination of capabilities.

DA-Integrated would like to thank all of its customers, suppliers, partners, colleagues and friends for the support we have received over the years and we look forward to continuing and enhancing these relationships.

Warmest regards,

DA-Integrated

Additional Information:
